THE ATTENTION OF SHIPPERS and Passengers is called to the advantages offered by the Royal Mail Steam Packet Co.'s Line, not only in the Superior and Increased Accommodation in the Class of Ships now on the route from Colon (Aspinwall) direct to Southampton, but also to the saving of time on the voyage of several days less than hitherto.

The large steamers which leave Southampton proceed direct to Colon, and return direct to Southampton, thus obviating the former inconvenience of transhipment, and charging ships at Water Island or Jamaica. The Tasmanian, which left Southampton on the 2nd June, made the passage to Colon in 15 days and 20 hours.

CURES AND COMFORT FOR THE BED-RIDDEN.

—BY—

Holloway's Ointment.

This wonderful Ointment acts like magic in relieving curing old sores, wounds, bad legs, ulcers and eruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage, and exerts the most wholesome influence over the internal structures It heals by cleansing all animal fluids with which it comes in contact, and thereby promotes a sound and permanent cure.

Gout and Rheumatism.

To sufferers from the racking pains of rheumatism and Gout this ointment will prove invaluable. After fomentation with warm water the soothing action of this Ointment is most remarkable; it seems at once to lessen inflamation, ease pain, reduce the swelling, restore natural circulation, and expels the disease. For the above complaints Holloway's Ointment and Pills are infallible specifics.

Diptheria, Bronchitis, Sore Throats, Coughs and Colds

In this class of diseases may be cured by well rubbing the Ointment, three times a day, upon the throat, chest and back of the patient. It will soon penetrate and give immediate relief. In all stages of Influenza, Colds and Bronchitis, this treatment may be followed with efficiency and unexpected [illegible]

All Varieties of Skin Diseases, Scrofula and Scurvy.

This Ointment is a certain cure for Ringworm, Scurvy Scrofula or King's Evil, and the most inveterate skin diseases to which the human race is subject. They cannot be treated with a safer or more speedy remedy than Holloway Ointment, assisted by his celebrated Pills which act expeditiously on the constitution and so purify the blood that those disorders are completely eradicated from the system, and a lasting cure obtained

Dropsical Swellings.

Beware of this dangerous and stealthy complaint which frequently creeps upon us by slight uneasiness or trifling jaundice, of which little or no notice is taken until the legs begin to swell. The cause of the evil must be looked to in the liver and stomach, therefore set to work earnestly by using Holloway's Ointment and Pills according to the printed instructions and rubbing the Ointment very effectively over the pit of the stomach and right side where those organs lie. Most dropsical cases will readily yield to the combined influence of the Ointment and Pills.

Piles, Fistulas, and Internal Inflammation.

These complaints are most distressing to both body and mind, cause delicacy concealing them from the knowledge of the most intimate friends. Persons suffer for years from Piles and similar complaints when they might use Holloway's Ointment with instant relief, and effect their own cure without the annoyance of explaining their ailment to anyone

Disorders of the Kidneys, Stone and Gravel.

Are immediately relieved and ultimately cured if this Ointment be well rubbed twice a day, into the small of the back, over the regions of the kidneys to which it will gradually penetrate and in almost every case give immediate relief; but perseverance will be necessary to effect a to rough cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Cancers,	Scalds,
Bad Breasts,	Contracted and	Sore Nipples,
Burns,	Stiff Joints,	Sore Throats,
Bunions	Elephantiasis,	Skin Diseases
Bite of Mosquetos	Fistulas,	Scurvy,
and Sand Flies,	Gout,	Sore Heads,
Coco-bay,	Glandular	Tumours,
Chiego-foot,	Ings,	Ulcers,
Chilblains,	Lumbago,	Wounds
Chapped Hands,	Piles,	Yaws,
Corns, (Soft)	Rheumatism,

The SATURDAY REVIEW says—"The Family Herald stands at the head, both in age and popularity, of all the penny serials."

The ILLUSTRATED LONDON NEWS, in reference to pure literature, says—"The Family Herald, the joy to tens of thousands of innocent English households."

The BRITISH QUARTERLY REVIEW says—"The Family Herald is well considered, with reference to its aims, and is various and amusing, with a fair amount of utility intermixed. Of all these weekly serials, we are inclined to consider the Family Herald the best."

The LITERARY GAZETTE says:—"It must be said of the Family Herald that it is the purest reading of all purely amusing literature."

The BOOKSELLER says:—"For amusing reading, such as may be admitted to one's household without fear of consequences, we may recommend the Family Herald. You get portions of a well-written novel, novelettes, useful information interspersed throughout, Answers to Correspondents, alone worth the money, and other matters, which will make readers either merrier or wiser, or perhaps both."

LEIGH HUNT, in his 'Autobiography,' says:—"I call out every week for my Family Herald, a penny, publication qualified to inform the best of its contemporaries."

LEADING ARTICLES AND ESSAYS.—"There is a well-considered leading article or essay, every week, upon some subject of an instructive or thoughtful character."—British Quarterly Review. "The essays are excellent specimens of strong, vigorous writing"—Cheltenham Journal.

NOVELS AND TALES.—"Its Novels and Tales are quite as well written as the best circulating library stories."—Saturday Review. "Under the head of the Story Teller, we have novels and tales simpler and purer in structure than in the pages of the other penny serials"—British Quarterly Review. "Many of its tales, if given as three-volume novels, would find their way to every reading-room and library in the kingdom."—Plymouth Herald

ANSWERS TO CORRESPONDENTS.—"The editor is the confidant and confessor in every station of life. The Answers to correspondents cannot be fictitious, a romance and a life history being embodied in almost each of them."—Saturday Review. "Its correspondence is great upon curious matters, elucidating old customs, and opening up forgotten treasures."—Gloucester Chronicle. "The Answers to Correspondents afford an insight to the operations of the heart and mind of society, which cannot be obtained elsewhere."—The Wesleyan.

POETRY—"There are charming verses let into its pages, like sunshine, to brighten them."—British Quarterly Review. "Its poetical contributions are of a high character, and show that a clever supervision is exercised over this interesting department of the paper."—Derby Telegraph

RANDOM READINGS.—"An anthology of stray humour, most judiciously selected"—British Quarterly Review. "Its Random Readings are the recognised modern Joe Miller"—Brighton Gazette.

FAMILY MATTERS.—"Recipes and instructions in household matters, excellent in their way, are given week by week."—British Quarterly Review. "It contains admirable instructions to housekeepers, the choice of provisions, and housekeeping generally."—Derbyshire Advertiser.

THE RIDDLER—"A fund of amusement is afforded to the home circle in its capital riddles, puzzles, enigmas charades, and rebusses."—Brighton Examiner. "The beginner will learn considerably from its arithmetical and mercantile questions: while the more practised will find much to work at in the mathematical, astronomical, nautical and scientific questions, with the advantage of solutions which are given in extenso." Cambridge Chronicle.

THE GRAND PROMOTERS OF HEALTH.

HOLLOWAY'S PILLS.

The grand secret of attaining happiness is to secure good health, without which life is stripped of its pleasures. The first irregularity of any function should be checked and set right by appropriate doses of these fine purifying Pills, which strengthen the system by thoroughly cleansing the blood from all impurities. They balance disordered action, remove the cause of disturbance and restore its normal and natural power to every organ, without inconvenience, pain or any other drawback

Derangement of the Bowels, Liver and Stomach Complaints.

This medicine is so well known in every part of the world, and the cures effected by his use are so wonderful as to astonish every one. It is pre-eminence as a remedy for bilious and liver complaints and derangements of the stomach and bowels, is no longer a matter of dispute or doubt. In these diseases the beneficial effects of Holloway's invaluable Pills are so permanent and extensive, that the whole system is renovated, the organs of digestion strengthened, and full and easy assimilation protected, so that both physical and moral energy are increased,

Determination of Blood to the Head.

This is generally occasioned by some irregularity of the stomach and bowels, which, if not quickly attended to frequently terminates fatally. A few doses of these famous Pills never fail to give tone to the stomach regularity to the secretions, and purity to the fluids. Vertical dimness of sight and other indications of approaching apoplexy, are entirely dissipated by a course of this admirable medicine.

The Female's Best Friend

For all debilitating disorders peculiar to the sex and every contingency perilous to the life of women, youth ful or aged, married or single, this mild but speedy remedy is recommended with friendly earnestness. It will correct all functional derangements to which they are subject.

Scrofula and all Skin Diseases.

For all skin diseases, however inveterate, these medicines are a sovereign remedy While the Pills act upon the blood, which they purify, the ointment passes through the pores of the skin, and cleanses every structure, as water saturates hemp or as salt penetrates meat. The whole physical machinery is thus rendered healthy, regular and vigorous

Coughs, Colds and Asthmas.

No medicine will cure colds of long duration or such as are settled upon the chest so quickly as these famous Pills. Even in cases where the first stage of asthmas has appeared these Pills may be relied on as a certain and never failing remedy, particularly if the Ointment be simultaneously well rubbed into the chest and throat night and morning.

Indigestion---Billious Headache.

These complaints may sometimes be considered trifling out it should be borne in mind that by inattention and neglect, they often end most seriously. Give early thought to a deranged stomach take Holloway's Pills, rub his celebrated Ointment over the pit of the stomach, and you will shortly perceive a change for the better in your digestion, spirits, appetite, strength and energy. The improvement, though it may be gradual will be thorough and lasting.

Holloway's Pills are the best remedy known in the world for the following diseases:

Ague	Female Irregularities	Scrofula King Evil
Asthma		
Bilious Complaints	Fevers of all kinds	Sore Throats
Blotches on the Skin	Fits	Stone and Gravel
	Gout	Secondary Symptoms
Bowel Complaints	Headache	
Colics	Indigestion	Tic-Douloureux
Constipation the Bowels	Inflammation	Tumours
	Jaundice	Ulcers
Consumption	Liver Complaints	Venereal Affections
Debility	Lumbago	
Dropsy	Piles	Worms of all kinds
Dysentery	Rheumatism	Weakness, from whatever cause
Erysipelas	Retention of Urine	
&c.	&c.	&c.

Ayer's CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in regard to many of the far more serious and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well-known public persons:

From a Forwarding Merchant of St. Louis, Feb 4, 1866.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORGRIDGE.

As a Family Physic.

From Dr. E W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR BRO. AYER: I cannot answer you *what* complaints I have *cured* with your Pills better than to say *all that we ever treat with a purgative medicine.* I place great dependence on that effectual cathartic in my daily contest with disease, and believing, as I do, that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, Pa., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst *headache* anybody can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once.

Yours with great respect, ED. W. PREBLE.
Clerk of Steamer Clarion.

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of *bilious complaints* than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR,
Washington, D. C., 7th Feb., 1866.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of *bilious disease* so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for *bilious dysentery and diarrhœa.* Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

Yours, J. V. HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1865.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and *purify the fountains of the blood.* JOHN G. MEACHAM, M. D

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your Pills for the cure of *costiveness.* If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it, for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe confessedly to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Stuart, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the *natural secretion when wholly or partially suppressed,* and also very effectual to *cleanse the stomach* and *expel worms.* They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hawkes, of the Methodist Episcopal Church.

PULASKI HOUSE, Savannah, Ga., Jan. 6, 1866.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating *neuralgic pains,* which ended in *chronic rheumatism.* Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 5 Dec., 1855.

DR AYER: I have been entirely cured, by your Pills, of *Rheumatic Gout*—a painful disease that has afflicted me for years. VINCENT SLIDELL.

☞ Most of the Pills in market contain Mercury, which although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

The Public Health.

Foremost among the many improvements that have taken place in the present day, is the attention that is now paid to the conservation of the Public Health, and the growing conviction in the minds of all intelligent people, of the existence of a large number of diseases that are preventable; so that now, on the occurrence of such disease, some one is considered to blame; either the subject of it, or those who are charged with the duty of providing for his well being, and it is now seen to be as much the duty of our rulers to take care of the Public Health, as to make provision for the peace and material prosperity of the community. We recollect some time ago listening with great interest to the speech of the present Mayor of Victoria, on the occasion of his presenting himself for election, in which he alluded to the defective sanitary condition of the city, and pledged himself, if elected, that the subject of improved drainage and water supply, should have his earliest attention; we then congratulated ourselves upon the great advantages likely to accrue to the community from having a "Medical Mayor," one so fitted to deal with sanitary subjects, and so fully alive to their importance; we must, however, confess that we have been a little disappointed. No doubt Dr. Trimble has effected some reforms, and has contributed much towards the advancement of the town and the interests of the inhabitants generally; in achieving which, his judgment, tact, and knowledge of the hidden springs of action, have been of great assistance, but we would have felt more proud of him if he had more fully realized our early aspirations, and in the character of a sanitary reformer, done away with the numerous health destroying nuisances and improved the drainage and water supply. Perhaps the state of the Municipal treasury, the *res anguste domi*, may have had something to do with this apathy; but if we mistake not, the time has now come to be up and doing, as this community usually so healthy, is now threatened with the inroads of a disease that can only be "stamped out" by vigorous sanitary and hygienic measures. We allude to the occurrence of a few cases of Diptheria, a disease considered by many, to be new, but which is one of considerable antiquity, having for a time disappeared, but again in our generation, extending over all portions of the globe; breaking out in Boulogne, in 1855, and subsequently appearing on this coast, in California, in 1856, gradually increasing in prevalance, until 1860, since which time it has declined in frequency, although still existing. In Europe, it numbered among its victims, Stephanie, the beautiful Queen of Portugal, who from her position, might have been supposed to be free from all anti-hygienic surroundings, but any one who knows the neighbourhood of the Adjuda Palace, Lisbon, can understand how dangerous it is for those in position to neglect the physical circumstances of those around them. In thus writing, we do not wish to be alarmists, but believing prevention is better than cure, and that such a disease is easily arrested and extinguished by attention to sanitary measures, we would strongly impress on the authorities, the necessity to put the "house in order," and organize measures for improving the public health, vigorously, but at the same time judiciously enforcing the removal of nuisances, sewerage, drainage and scavenging, and where it is impossible to effect their radical removal, the free use of disinfectants ought to be had recourse to. Whitewashing all unhealthy tenements, shutting up wells impregnated with impurities, recommending the filtration or boiling of all drinking water, the propriety of giving holidays to the public schools, so as to avoid the crowding together of children; these and other precautions, possessing as they do in their own body the highest medical skill, we hope the city authorities will urge, so as to protect us against the inroads of epidemic disease. At present there is no main drainage, the greater part of the water supply is from shallow wells, which now being partially dried up are largely impregnated with animal and vegetable impurities, the result of the surface drainage; while owing to the high temperature, decomposing matter the accumulation of years, is poisoning the atmosphere, and such a state of things as entire absence of drains, open cesspools, if allowed to remain in their present disgraceful state, can only continue, owing to neglect of duty on the part of the Municipal authorities, and not from any want of legal power to put them into proper condition, as ample powers in this matter are conferred by the Imperial Sanitary Act of 1866. Smallpox, of which a few cases has appeared amongst the Indians, the most preventable of all diseases, calls for the vigorous enforcing of vaccination, as with the prevalence of this terribly contagious disease, it is highly culpable to neglect such a cheaply purchased immunity as vaccination confers. But while we advocate preventive measures within, we must not forget that we are also threatened from without, by the prevalence in an adjacent sea port, of cholera, a disease communicated by a specific poison emitted from patients already attacked, and carried to others through the water or air, and following the line of human intercourse. Such a disease we have special reason here to dread, as we fear all the conditions favorable to its acclimatisation and diffusion exist, and vigilance is especially needful to prevent its importation, and which can only be guarded against by the careful inspection by a health officer, of all crews and passengers arriving from any suspected locality. With proper attention to sanitary measures, we believe it is possible to extinguish epedemic disease, however intense may be the atmosphere or other agencies, and to this end it is desirable that the public should know what precautions ought to be taken.

EDITOR COLONIST:—As death lately has so sadly bereaved some families of their dear little ones, I send you these few lines of pretty poetry which I met with some time since, feeling that their insertion would be very appropriate: W. K. B.

THE EMPTY CRADLE.

In the still and quiet chamber,
There's an empty cradle bed,
With a print upon the pillow
Of a baby's little head.
'Tis a fair and dainty cradle;
Downy, soft, the pillows white,
But, within the blankets folded
Lies no little form to-night.

Once the mother sat beside it
When the day was growing dim,
And her pleasant voice was singing,
Soft and low, a cradle hymn.
Now there's no more need of singing,
When the evening shadows creep,
For the cradle bed is empty,
And the baby gone to sleep.

Little head that used to nestle
In the pillows white and soft;
Little hands, whose restless fingers
Folded there in dreams so oft;
Lips we pressed with fondest kisses,
Eyes we praised for purest ray,
Underneath the churchyard daisies
They have bid you all away.

Ah, the empty, useless cradle,
We will put it out of sight,
Lest our hearts should grieve too sorely
For the little one to-night.
We will think how safe forever,
In the better fold above,
That young lamb for which we sorrow,
Resteth now in Jesus' love.

HOLLOWAY'S PILLS.—The change of temperature and weather frequently upset persons who are most cautious of their health, and most particular in their diets. These corrective, purifying, and gentle aperient Pills are the best remedy for all defective actions of the digestive organs: they augment the appetite, strengthen the stomach, correct biliousness, and carry off all that is noxious from the system. Holloway's Pills are composed of rare balsams, unmixed with baser matter, and on that account are peculiarly well adapted for the young, delicate, and aged. As this peerless medicine has gained fame in the past, so will it preserve it in the future by its renovating and invigorating qualities, and its incapability of doing harm.

WHEN you are depressed by the gaunt, sickly feeling of a disordered system, which needs to be cleansed and stimulated into healthy action, take a dose or two of AYER'S PILLS and see how quick you can be restored for a shilling. *

The Ascent of Mount Baker!

From a conversation had with Mr Ogilvy, who has just returned, as already stated, from the Mount Baker expedition, we have gathered a few more facts in addition to Mr Coleman's, letter which is also published in connection with the same and which may be interesting to the public. The party left Whatcom on the 8th August, traveled up the Lummi and Nootsac rivers by canoe 80 miles; then 20 miles through a desperate country, to what may be called the foot of the mountain. At the snow line, where vegetation ceases, the Indians camped, allowing the explorers to reach the summit themselves, which they did the same day, and returned to camp in the evening. The distance traveled, which was about six miles, is said to have been most fatiguing, though not as perilous as was expected. Being obliged to return to the camp the same evening, the explorers had only about an hour on the summit; this short period they seem to have used diligently. The existence of a volcano is established beyond a doubt, the crater being about three hundred feet wide, and at least six hundred feet deep, from which puffs of sulphurous vapor are being emitted. This crater lies between the two high peaks of the mountain, where the summit forms a plateau quite bare and free from snow; which is a quarter of a mile wide, and half a mile long. The eastern peak, called after Gen Sherman, is the higher of the two. The time spent on the summit was devoted to examining the crater, and planting the American flags, with so much of the usual honors as the party were enabled to give. The mountain, as most persons no doubt are aware, is a few miles south of the boundary line, the 49th parallel. The most arduous part of the ascent was at the last pitch, where the party had to cut 400 steps in the ice in order to reach the top. The Indians would not go any higher than the line of vegetation; but they received the party on returning from the summit; with marked demonstrations of welcome and joy, evidently recognizing the dangers and hardships of this part of the trip, and the courage and skill the explorers had shown in overcoming them so speedily. No signs of game were seen on the mountain except the huge foot-prints of a bear, which the natives said was an old grizzly. It was well our friends did not come in collision with his bearship. Mr Coleman will return by the Eliza Anderson, from Port Townsend, next week, when, doubtless, we shall have additional details of the expedition and its scientific results. Mr Coleman, we believe, has the honor of making the first successful ascent of this mountain, and which he and his party failed to accomplish on a former occasion, by reason of the Indians accompanying as guides and packers refusing to proceed further than a certain distance into the interior. Various authorities have given estimates of the altitude of Mount Baker; some laid it down at 14,000 feet high; some at 16,000 feet; while others again have even given it an altitude of 21,000 feet, equal to some of the highest peaks on the Continent.

An Extraordinary Case.—In our police report will be found the case of Alexander Campbell, who voluntarily confesses to have burned Bailey's barn on Thursday last. This is really an extraordinary case. It appears from his own statements that he became aware of another man being accused wrongly of the offence: but not knowing, we suppose, that the party was honorably discharged, he comes forward and voluntarily criminates himself rather than another, as he said, should suffer for his deeds. He gave such circumstantial details of the burning; how he passed the night until the hour of the fire; how he approached the barn; where he left the shoes he wore; together with other things, that no doubt can be entertained of the man's sanity or guilt. The motive assigned was that Bailey would not pay him two months wages alleged to be due, but wanted him to drink the money out in bad liquor, and he was therefore bound to have revenge. When in the dock and confronted with Bailey, for whom he has worked off and on six years, he persisted in his statements, and made Bailey acknowledge that he had refused him money to buy clothes Campbell seemingly so anxious to save another man from unjust suspicion, at the same time appears to have no compunction for his great crime, but rather treats it cavalierly. The case taken altogether is one of the most singular that has appeared on the police records of the Colony; and but for this cool, deliberate, and, so far as conscience is concerned, unnecessary confession, the crime might never have been cleared up.

Another Prize Lamb—A lamb raised by Mr Francis near Parson's Bridge on the Metchosin road, was slaughtered yesterday in town and when dressed weighed 65 lbs. We mention these cases in hope that they may assist in some measure to our fine grazing lands being eventually covered with sheep. With such facilities of raising stock as are offered in this Colony and with such results wherever tried, it is time we ceased importing so much of our meat from Washington Territory and Oregon.

The Indians.—Much anxiety prevails at present in the public mind respecting the sickness reported to exist among the Indians There have, it is true, been several deaths lately amongst these people, but as far as we can learn, most of them were from measles, not small pox. However, the authorities are acting as positively as they can, and through the police, all Indians belonging to outside or distant tribes are ordered to return to their homes. We shall therefore have a large diminution in the number of those residing in the city.

Dr Brown.—We find in the *Edinburgh Daily Review*, of July 11th, that amongst other papers read before the Botanical Society, on the 9th of July, were the following: by Mr Robert Brown, formerly of this place, Contributions to the Phyto-Geography of Greenland, within the parallels of 68 deg. and 70 deg. N lat., with notes and lists of the plants. Second, by Professor Dickie, Notes on Algæ, collected by Mr Brown, on the Northwest Coast af America. The chair was occupied by Anderson Henry, Esq., of Woodend.

Police Court.—Isaac Hamilton, for selling liquor to Indians, was yesterday fined $25, or in default of payment seven days imprisonment. The prisoner was dealt lightly with from having met with an accident to his right hand. Joe, the notorious, charged with stealing Marten skins was again remanded. Alexander Campbell, voluntarily surrendered himself to the police authorities, and confessed to having burned Bailey's barn, Saanich road, on Thursday mornig, remanded for three days.

To-Day's Auction Sale of Clothing will commence immediately after the sale of sugar Ex Ava from Peru. The clothing will comprise several cases of new clothing and and other lines of regular goods of previous importations. The terms of sale are liberal which of itself should be an inducement to purchasers to lay in a stock for the approaching season. The sale of sugar commences at 11 a. m., Mr Mc Crea, auctioneer.

Circus—We have received by telegraph an announcement of the intention on the part of a new Circus troupe to visit this city for the purpose of exhibiting for a short time. The company is said not only to be the best which has performed here, but also that it is the most superior one which has been to this coast. We presume the G S Wright which will be due here to-morrow, will convey the company to this port.

The Margaret Brander—This vessel is hove down at Sproat & Co.s wharf, and being thoroughly overhauled. Her leakage was principally forward and sprang from nothing very serious. Mr Laing has the contract. Complaints are made, that neither the labor or material necessary to expedite the work, can be obtained in the city.

The Volunteers:—Volunteers and others interested in sustaining and joining the ranks of the corps, which still survives the vicissitudes of colonial experience, are invited to attend the meeting this evening at Norris' drug store, with a view to imparting new life and vigor to the movement.

The Yale Convention.—We are authorized to say that Captain Fleming has generously offered to take the Delegates from New Westminster up and down the river free of charge; and we are further assured, that Capt. Irving will do the same.

The Successful Ascent of Mount Baker.

Sehome, W. T. 20th August, 1868.

Editor Colonist:—I take the earliest opportunity of sending you a few lines to say that the party which I had the honor of organizing has succeeded in reaching the summit of Mount Baker, having been absent from this place 14 days. The party consisted of Mr. Thomas Stratton, Inspector of customs, Mr John Tennant, of Whatcom County, Mr David Ogilvy, of Victoria, and myself. Two peaks were discovered as surmised by me, one being concealed by the other, as seen from the West. As there is scarcely any appreciable difference in their height, the Stars and Stripes were planted on both, and they were named after Generals Grant and Sherman respectively. The volcano lies between the two; only a cursory view could be obtained of the crater, by reason of a projecting cornice running round the summit of the mountain, which rendered any attempt to gain a closer view, highly dangerous. I estimate the height of the mountain to be 11,409 feet, but it is possible that a more careful calculation and comparison of the aneroid barometer with a standard or mercurial one, may give a different result. The party made a collection of minerals and plants, and have it is believed, discovered some species which will be found to be new to science. Mr. Stratton, whose knowledge of geology, and long experience of gold mining in the mountain districts of California entitling his opinions to respect, noticed three extinct craters, specimens from which have been obtained Mr. Stratton is also of opinion that there are not any indications of gold, as the formation is of sandstone, commonly known as the coal measures.

I am, dear sir, yours respectfully,
EDWD. T. COLEMAN.

A Very Merciful Jury.—At the Durham Sessions on Monday, Ann Calder and Ann Mooney were indicted for stealing 7s., the moneys of William Templeman, at South Shields. At the close of the evidence the prisoners pleaded guilty, when the jury began to consult among themselves, and, to the astonishment of the Court, they returned a verdict of "Not Guilty." The attention of the jury was then drawn by the Bench to the fact that the prisoners had pleaded guilty, and had also been previously convicted. The jury, however, adhered to their verdict, and the prisoners were accordingly discharged.—*English Paper.*

SPECIAL TO THE DAILY BRITISH COLONIST

LAST NIGHT'S DESPATCHES.

Eastern States.

New York, Aug. 18—Several cases of yellow fever are reported in Brooklyn.

Washington, Aug. 18—There is no foundation for the rumor of the impending war between France and Prussia. The French Legation regards such a rumor as absurd. The Prussian Minister has received no information, looking for such events.

Europe.

Berlin, Aug. 18—Switzerland summarily rejected any proposal of France looking to an alliance with that power.

Paris, Aug. 18—The following are among the promotions and honorary appointments decreed by the Emperor on his fete day. Count de Sarteges formerly Minister to the United States, M. Charles etc *une conti* Councillor of State and private Secretary to the Emperor, and M. Auguste Nelaton eminent physician, made Senator. Bon. S. D. H. M. Bon. S. Dilen and M Lyon, J. Jourdine vice Consuls of France were decoratd as Chevaliers of the Legation of honor.

The election of members of the Corps Legislatif for the department of Jano resulted in the success of M. Grevy, candidate of the opposition; majority 1100 over Hunte official candidate of the Government.

European mail advices contain the following. The London journals announce the death of Dr John Elliott, whose name has been widely known among scientific medical men in both hemispheres.

It is rumored that Louis Blanc has decided upon returning to France for the general election.

Napoleon subscribed 11,000 francs toward the memorial of Cobden at Camdentown.

The *Opinione Nationale* says the Duke Alfes, of Russia, now en route for the United States is charged with bringing the American and Russian Governments closer into relationship.

Garibaldi has written from Caprera letters which appear in Bologna papers full of fierce impatience. It thus concludes: "I shall believe ever that people mean freedom, when I see the shops of St. Petersburg turned into asylums for the indigent; when I see the flask of St. Januarius broken on the tousured pate of the ludicrous sorcerer. Come what will, I shall die happy if on that day when you fight for Italy's freedom which I hope will be soon. I can follow you at least in an ambulance."

London, Aug 19—Advices from Hong Kong of July 10th state that at Hong Kong, the Commission has reported against the granting of licences to gambling houses by the Colonial Government.

Soon after the arrival of the American yacht Sapho at Cowes, her captain issued a challenge to all England for a race. The challenge was immediately accepted by a number of yachts, and the race which is to be for a sweepstakes of twenty pounds, will occur on the 21st. They will start from Cowes, go a round the Isle of Wight to the westward, through the Solent to the place of starting. Distance 75 or 80 miles,

Canada.

Toronto, Aug. 18—The *Globe* professes to have positive information of extensive preparations on the other side for a Fenian raid. The military have been ordered to hold themselves in readiness at a moment's notice.

Montreal, Aug. 19—The Committee which has been sifting the affairs of the late D'Arcy McGee have been met with great liberality in the settlement of his debts on the part of his creditors, but the public subscriptions thus far received, have not been sufficient to cover the amount owed by him.

South America.

London, Aug. 18—The English journals publish letters from Rio Janeiro. A new Cabinet under Viscount Itiardo is inclined for peace, and the majority of the people of Brazil are tired of the war with Paraguay and clamor for peace. The same correspondent says the people of the Argentine confederation are no less desirous of peace, and states that when the protocol of a new treaty of alliance with Brazil was presented recently to the Argentine Congress, it met with great opposition and was in effect annulled.

The *Herald* to-day thinks many able Americans have been lost, but the Republican party will long feel they could better have spared a better man.

Mexico.

New York, Aug 18th—Port au Prince dates report Salnave as constantly insulting foreigners. He had imprisoned the Prussian Consul and some Englishmen. The British Consul protested and Salnave threatened his life. The British man-of-war Favorite was preparing to bombard the city. Vera Cruz was full of malcontents consisting of French, German, Spanish and Americans. Business men espouse the cause of Government. The rebels make raids to within musket range of the city. The local authorities do not interfere. Civil authority was suspended.

Additional advices from Port au Prince state that excesses continue to be committed on peaceable inhabitants, of a most outrageous character. Salnave seems to spurn the protests of foreign Consuls who demand satisfaction for injuries done subjects of their respective governments. He is, however, contemplating abdication and flight to Turk's Island. The departure of the Sylvan with Salnave's baggage and family on board, is confirmed. The revolution seems to be triumphant.

Oats $2 30@2 50.

Arrived Aug. 19—Bark Gen. Cobb from Teekalet,

Aug. 20—Barkentine Occident, Columbia River.

Sailed, Barkentine Jenny Pitts, Seabeck.

San Francisco, Aug 21—The revenue officers made a raid on the grocers to day, seizing a large quantity of sardines, because of their not being properly stamped.

The steamer Constitution sails to-morrow for Panama with a large number of passengers.

The Sub-Treasurer recently shipped $500,000 gold coin by the Oregonian.

Some very respectable cargoes of wheat were dispatched during the last week.

Oregon

Portland, Aug 22—Stmr George S Wright sails for Victoria on Monday evening.

Torture.—Who would endure the torture arising from Chills and Fever, when it can be easily cured?

Who would endure sleepless nights, burning fevers and icy chills alternately, when a remedy can be obtained for a trifle?

Who would wander like an uncertain shadow, never knowing what moment they may be prostrated?

Who would be a burden to himself and a burden to his friends, who are worn out in administering to his wants?

Who would live this life of agony when the great alterative and tonic,

HOSTETTER'S STOMACH BITTER'S,

can be obtained at the nearest village. This long established and justly renowned medicine has never been known to fail in a single case, and none but the foolish and weak would hesitate to procure it at once, and save themselves from intense, life-long torture. Prepared after a long experience and deep study, it has received the encomiums of the most eminent physicians, as well as all classes from every part of the country. To those who doubt its many virtues, all we can say is, TRY IT and judge for yourselves.

Every day letters pour in upon us, testifying to its great efficacy in curing Fever and Ague, Dyspepsia, Languor, Nausea and similar ills.

CORRECTIVE AND ALTERATIVE

Of Wonderful Efficacy in Diseases

OF THE

STOMACH, LIVER AND BOWELS,

PROTECTIVE PROPERTIES.

Prevents Fever and Ague and Billious Remittent Fevers Fortifies the System against Miasma and the evil effects of unwholesome water; invigorates the organs of digestion and the bowels;

Steadies the Nerves and Tends to Prolong Life.

REMEDIAL PROPERTIES.

Cures Dyspepsia, Liver Complaint, Sick and Nervous Headache, General Debility, Nervousness, Depression of Spirits, Constipation, Colic, Intermittent Fevers, Sea Sickness, Cramps and Spasms, and all complaints of either sex arising from Bodily Weaknesses, whether inherent in the system or

PRODUCED BY SPECIAL CAUSES.

As a genuine Tonic, HOSTETTER'S BITTERS produce effects which must be experienced or witnessed before they can be fully appreciated.

Persons of feeble habit, liable to Nervous Attaks, Lowness of Spirits, and Fits of Languor, find prompt and permanent relief from the Bitters. The testimony on this point is most conclusive, and from both sexes.

In districts infested with Fever and Ague, it has been found infallible as a preventive and irresistible as a remedy. Thousands who resort to it if under apprehension of an attack, escape the scourge; and thousands who neglect to avail themselves of its protective qualities in advance, are cured by a very brief course of this marvelous medicine.

Acting as a gentle and painless aperient, as well as upon the liver, it also invariably relieve the Constipation superinduced by irregular action of the digestive and secretive organs.

Our Mr Mitchell's mode of constructing Horticultural Erections is highly spoken of by the late Dr Lindley in a leader of the Gardener's Chronicle for 1857. He sums up thus:—"It seems to us that we have here an improvement introduced into construction, which is second only to that which followed the introduction of hot water pipes."

McIntosh in his "Book of the Garden," highly approves his improved method of tank heating.

TO THE UNFORTUNATE

NEW REMEDIES, NEW REMEDIES.

Dr Gibbon's Dispensary,

616 KEARNEY STREET, NEAR Commercial, San Francisco, Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhœa, Gleet, Stricture, Syphilis, in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

DR. GIBBON has the pleasure of announcing that he has returned to this State, after an absence of one year during which time he visited all the principal Hospitals of Europe, among them those of Dublin, London and Paris. The following celebrated Hospitals of London are among those visited by the Doctor: Guy's, High street, Borough; St. Bartholomew's, Smithfield, St. Luke's, Old street; St. Mary's, Camb. Place, Pad.; Lock, Harrow Road: University, Gower street; Westminster, Broad Sanctuary; Charing Cross, Agar street, Strand; London, White Chapel Road; Royal Free, Gray's Inn Road; King's College, Portugal street

DR. GIBBON has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Horrible Diseases.

How many thousands of persons, both male and female are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system. Look at their pallid, emaciated and disfigured faces, and their broken down constitutions, disqualifying them from the happiness of marriage or of the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of those horrible, life-destroying maladies—see that they are cared for, and cured before it be too late. Send them immediately to DR. GIBBON, a physician who has made private diseases his especial study for years, who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended Doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful, and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz.: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes; pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN.

Of those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief.

DR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

Cured at Home.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr Gibbon stating case, symptoms, length of time the disease has continued, and have medicine promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use. By enclosing $15 in currency or $10 in coin, in a registered letter through the Post office or through Wells Fargo & Co., a package of medicine will be forwarded by express to any part of the Pacific Coast.

Address Dr. J. F. Gibbon, 616 Kearney street, corner Commercial, San Francisco.—Post office box 262.

Remember to put BOX 262 on the letter.

Consultations FREE.

Medical.

French Medicines,

PREPARED BY

GRIMAULT & CO.

Chemists to H.I.P. Prince Napoleon,

PARIS.

These different medicines represent the most recent medical discoveries, founded on the principles of Chemistry and Therapeutics. They must not be confounded with secret or quack medicines, as their names sufficiently indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the Faculty in the whole world. They widely differ from those numerous medicines advertised in the public papers as able to cure every possible disease, as they are applicable only to but a very few complaints. The most stringent laws exist in France with regard to the sale of medical preparations, and only those which have undergone an examination by the **Academy of Medicine** and have been proved efficacious, either in the hospitals or in the practice of the first medicalmen, are authorised by the Government. This fact must be a guarantee for the excellence of **Messrs. Grimault et Co.'s** Medicines.

NO MORE COD LIVER OIL!

Grimault's Syrup of Iodized Horse Radish.

This medicine has been administered with the utmost success in the Hospitals of Paris. It is a perfect substitute for Cod Liver Oil, and has been found most beneficial in **Diseases of the Chest, Scrofula, Lymphatic Disorders, Green Sickness, Muscular Atony, and Loss of Appetite.** It regenerates the constitution in purifying the blood, it being the most powerful depurgative known. It has also been applied with happy results in **Diseases of the Skin.** Further, it will be found to be of great benefit to young children subject to **Humors and Obstructions of the Glands.**

CONSUMPTION CURED!

Grimault's Syrup of Hypophosphite of Lime.

This new medicine is considered to be a sovereign remedy in case of **Phthisis** and other **Diseases of the Lungs.** It promptly removes the most serious symptoms. The cough is relieved, night perspirations cease and the patient is rapidly restored to health.

N.B.—Be sure to see that the signature of **Grimault & Co.** is affixed to the bottle, as this Syrup is liable to imitations.

NO MORE DIFFICULT OR PAINFUL DIGESTION!

DR BURIN DU BUISSON'S

(Laureate of the Paris Imperial Academy of Medicine

DIGESTIVE LOZENGES

This delicious preparation is always prescribed by the most reputed medical men in France in cases of derangements of the digestive organs, such as

Gastritis,
Gastralgia,
Long and Laborious Digestion,
Wind in the Stomach and Bowels,
Emaciation,
Jaundice, and
Complaints of the Liver & Loins

NERVOUS HEADACHE,
NEURALGIA,
DIARRHŒA, DYSENTERY,

INSTANTLY CURED BY

Grimault's Guarana.

This vegetable substance, which grows in the Brazils has been employed since time immemorial to cure **Inflammation of the Bowels.** It has proved to be of the greatest service in cases of

Cholera, as it is a preventive and a cure in cases of Diarrhœa.

NO MORE COPAIBA OR CUBEBS!

Grimault's Capsules and Liquid Extract of Matico Vegitalis.

Where all other preparations have failed these preparations will always effect a cure. These insure rapid and extraordinary cure of severe recent and chronic cases of private diseases. They are used in the hospitals of Paris, by the celebrated Dr Ricard, and found greatly superior to all hitherto known mineral remedies and Copabia and Cubebs. The injection is used in recent, and capsules more chronic cases.

CHARLES TURNER, Esq., M. P. CHAIRMAN, PERCY M. DOVE, Manager.

THIS COMPANY HAS NOW THE LARGEST income for Fire and Life Premiums of any Company in the world.

The undersigned, Agents for Vancouver Island and British Columbia, return their particular thanks to the public for their patronage of the Royal since the opening of the agency, and also to the Victoria Fire Companies for their valuable services.

The Fire Branch

Of this agency in 1864, was nearly double that of 1863—the risks in Victoria alone amounted to $1,100,000.

The business of the

Life Branch.

Has also largely increased since the Directors reduced the rate to the English standard.

CARD OF THANKS.

THE UNDERSIGNED DESIRE publicly to thank the Phœnix Assurance Company of London, and their Agent at Victoria, for the liberality and promptitude under the circumstances with which their claim of Ten Thousand Dollars has been paid.

CHAS. GOWEN,
JOSEPH LOEWEN.

Victoria, July 29, 1868.

In explanation of the trifling delay in the payment of Messrs Gowen & Loewen's claim against the Phœnix Assurance Company of London for loss by fire on the night of the 15th inst., we would state, that the origin of the fire, as found by the Jury on the Fire Inquest, would have vitiated the Policy, but the Company, by cable Telegram from London, empowered the Acting Agent here to waive their legal rights and settle the claim, if otherwise satisfactory.

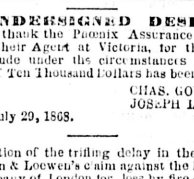
LIQUOR CARBONIS DETERGENS

OR

Concentrated Alcoholic Solution of the



COAL TAR

[Extract from the Lancet, Dec. 1 1866

LIQ. CARBONIS DETERGENS—We are very optical of the value of new remedies, and it was in a spirit of scepticism that we tried the liq. carbonis detergens. It is represented to be a concentrated alcoholic solution of the constituents of coal tar, and to contain all the active ingredients of the tar, to wit, benzine, naphtha and phenic acid. The addition of water, with agitation, makes a durable emulsion, in which the tar remains in a state of fine suspension, almost equivalent to solution. Our therapeutical experience of the preparation is very satisfactory indeed. In our hands it has been a most effective agent in the case of various skin diseases, especially of the chronic eczematous class; and one case of psoriasis which had resisted all other kinds of treatment speedily got well under the application of the liq. carbonis detergens. We esteem it a very valuable addition to our list of skin remedies, and worthy of a very extended trial by the profession. In the above classes of disease, and in various others, such as fetid ulcers, etc., the preparation is put into the form of soap.

PURE COAL TAR SOAP

(Registered as Sapo Carbonis Detergens.)

This Soap is unrivalled as a

as proved by abundant medical testimony. By daily use infectious diseases are prevented, and a clear and healthy appearance imparted to the skin.
